

WORLD CHESS PROJECTS NETWORK

Our intention also is to help existing chessgroups with networking and contacting to chess groups by a person who is searching for a local or online chess group/project. If someone for instance asks for locations or contacts of chess groups we give information. They are taken into our database if desired. Are you concerned with a project or do you know any one? Please contact us: info@selfhelpchessinternational.org or selfhelpchessinternational@yahoo.de An online database we`ll have in future. Naturally also this service is free to chess projects and players. We take no fees from any groups for membership.

Help us!

If you have any questions, suggestions or if you want to give us a feedback, please send a mail to one of the addresses above.

NEW!!! Our Mini Journal!

Selfhelp Chess International (now “World Chess Projects Network”) wants to give the possibility of communication by chess to all kinds of leisure chess players and players who are restricted in their mobility by health problems, because of their financial situation or simply due to lack of time by their job or other social circumstances. All of our projects are free , we provide and support chess networks of all kinds and offer free online chess in our numerous forums. Last, but not least we have created some innovative projects of chess. We want to connect all kinds of people, races, life circumstances, minds and social groups. You may be rich or poor, old or young, disabled, non-disabled or whatever chess may provide connections those otherwise never would have been arised. Chess helps to overcome barriers. Our main intention is more to provide using chess as a medium of communication than to play and train it intensively. We want to give everyone the same chance to take part; that`s why we don`t take any kind of fees. All in all we have nearly about 30000 members!
